Pure-Air 2000 Systems™

Uses Just One Air Line! Meets OSHA 29CFR 1910.134 Requirements for Providing Grade "D" Air*

90 Day Limited Warranty for Defects in Materials and Workmanship

Warning: Not for use in (IDLH), Immediately Dangerous to Life & Health Atmospheres, or with gasoline/kerosene powered compressors. Do Not operate at levels above 300 psi. SAS Safety Corp. recommends using a high quality oil & water separator prior to installation of Pure-Air 2000.

The Pure-Air Breathing Air System is a breakthrough in respiratory protection! This extraordinary system uses just one air line to supply user with clean, filtered, Grade "D" breathing air from electric shop compressors while maintaining pressure for use of spray equipment, sanders and all types of air tools.

* With proper use, this unit meets OSHA 29CFR 1910.134 requirements for constant flow supplied air.

Readers

- 5 Magnification Strengths
- Inclination Ratchet Temples
- Soft, Non-Slip Nose Bridge
- Adjustable Length Temples

It's Easy to Find Your Worksight Strength

1. Hold this chart 26" away from your eyes with out wearing glasses.
2. Read the lines across starting from the top line. Continue to read the next line and so on until the line becomes difficult to read.
3. To the right of that line is the diopter strength you need.

DIOPTER

If this is difficult to read at 26" +3.00

If this is difficult to read at 26" +2.50

If this is difficult to read at 26" +2.00

If this is difficult to read at 26" +1.50

If this is difficult to read at 26" +1.00

EYE/FACE WASH STATIONS

Portable Eye Wash Station

Portable eye wash station meets OSHA requirements. Includes inspection tag and water preservative.

(OSHA 29 CFR 1910.151.(C))

"Where the eyes or body of any person may be exposed to injurious corrosive materials, suitable facilities for quick drenching or flushing of the eyes and body shall be provided within the work area for immediate emergency use."

- 1-Hand Operation
- No Plumbing
- Gravity Fed
- 0.4 Gallons Per Minute (GPM) for 15 Minutes
- ANSI Z358.1 Compliant

Item No.	Description
5135	Eye Wash Station
5136	Water Preservative
5137	Inspection Tag

P/N 5136

**NEW
DESIGN**

- Built-in Handles & Wall Mount
- Double Latch on Tray for Secure Hold

P/N 5135

Secondary Eye Wash Station

- Durable plastic stations include two 16oz bottles
- Bottles have sealed twist-off tops
- Expiration dated to guard against contamination
- Directions printed directly on station for fast reference
- Pre-drilled holes for easier wall mounting
- Temporary first-aid until the person can reach a larger unit for 15 minute flushing

Item No.	Description
5132	Double Bottle Eye Wash
5130	Eye Wash/Irrigate Bottle

P/N 5132

All eye/face wash and drench shower bowls are manufactured from high ABS plastic or stainless steel. All units are ANSI Z358.1 compliant

Plumbed Eye/Face Wash

This rugged unit attaches to walls to provide emergency eye and face flush. Dust covers automatically release when water pressure is applied to shower heads. Includes inspection tag.

Features:

Shower Heads:	Two soft spray outlets with float-off dust covers
Operation Valve:	Stay-open ball valve remains open until physically shut
Spray Control:	Unit has a pressure compensating system to assure even, smooth flow
Supply:	1/2" NPT
Waste:	1 1/4" O.D. tailpiece

Item No.	Description
4100	Plumbed Eye/Face Wash
4120	Stainless Steel Plumbed Eye/Face Wash
