

The
Professional
Technician's
Choice

Associated Equipment Corp. established in St. Louis, Missouri in 1948 provides the highest quality professional automotive battery chargers, testers, booster clamps and cables in the industry. Especially known for its "Safe in Any Weather" Made in USA wheeled chargers; Associated Equipment is privately-held, family-owned and is the ONLY manufacturer that continues to build its award-winning line of products in the United States. For over 60 years, Associated has continued to provide the most versatile, reliable, innovative, and professional battery chargers and testers with MADE IN USA quality and service and continues to be first to market with a full line of Intellamatic® Smart Chargers for the next generation of automotive batteries. In addition, Associated Equipment is the ONLY charger line with OEM Vehicle Manufacturer Approvals.

Associated Equipment believes in "built-in-quality" products that should work each and every time a professional technician uses it; to ensure this happens, Associated 100% tests each and every fully assembled charger virtually eliminating out of box failures. Associated also believes in quality shipping and understands that our customers may need to ship product individually and as a result, has invested in the highest product packaging standards using high-density foam and burst-proof, superior strength cardboard boxes practically doing away with any possible freight or transit damage issues.

Associated Equipment prides itself in offering one of the most comprehensive, industry leading "best-in-class" warranty and factory support policies. Should an Associated product ever require service, there are over 200 Authorized Repair Stations across North America along with factory technical support and repair parts for both in-warranty and out of warranty support. Customers have come to expect only the highest quality parts and service from Associated Equipment and some customers continue to repair chargers that are over 20 years old!!

Associated Equipment also manufactures a full-line of Made in USA fume extractors for the welding and industrial markets under the Ace® Industrial Product and WeldSense™ trademarks. Associated also imports and supports a full-line of competitive battery testers, maintainers and battery chargers sold under the ATEC® brand name.

INTELLAMATIC®

Powerful & Intelligent

Associated Equipment was first to market with its innovative line of Intellamatic® Smart Chargers. Feature-rich, these chargers range from a 10 Amp Bench Charger to a 12/24 Volt 70/35 Amp “Safe in Any Weather” wheeled charger. All Intellamatic® chargers feature the ability to charge any type of battery including the sensitive AGM or GEL Cell batteries with a simple switch. These chargers also include a POWER SUPPLY feature for extended service procedures or vehicle re-flashes. In addition, many Intellamatic® Smart Chargers have a Dead Battery Override feature for batteries with low voltage to receive a quick boost charge, enabling the automatic charger feature to take over once the voltage is high enough. Intellamatic® Smart Chargers provide the most reliable, feature-rich performance of any chargers made in the United States today!!

6003

Model 6003

Intellamatic® Smart 12 Volt Powerful Battery Charger/Analyzer for AGM, GEL and Standard Flooded Batteries

Powerful Performance

- Micro-processor controlled and fully automatic
- Designed for AGM, GEL Cell, Sealed and Standard Flooded Batteries including Spiral Cell, Orbital™ or Optima™ Batteries
- Voltage/Amperage controlled charging
- Override switch for manual start of batteries below limit
- Switch for selection of battery type
- Weak battery detection and rejuvenation program

Durability

- Vacuum impregnated heavy-duty transformer to seal the unit against external agents
- Fan cooling mechanism prevents overheating enhancing unit's life span significantly
- Suitable for flooded or sealed batteries

Safety

- UL and CSA listed with “Safe in Any Weather” operation
- Cautions against incorrect polarity with patented “Stop/Go-light” technology

6007A

- 500 Amp clamps are covered with vinyl insulation; will not arc or spark
- Patented “Flexi-Spring” cable guards relieve cable stress

Additional Features

- Heavy-duty chrome plated handle
- Patented
- MADE IN USA

Model 6007A

Intellamatic® Smart Charger — 40 Amp/130 Amp boost Wheel Charger & Power Supply for Standard Automotive, Deep-Cycle, AGM and GEL Cell Batteries

Performance Features

- Electrical Stability System (ESS™) technology turns 6007A into a stable power supply for extended service procedures or re-flashes
- Nominal 13.7V DC output
- Program diagnostics indicate weak or defective battery
- Charges all types of 12 volt batteries
- Designed for AGM, GEL Cell, Sealed and Standard Flooded Batteries including Spiral Cell, Orbital™ or Optima™ Batteries
- Safe In Any Weather” Operation
- UL listed
- MADE IN USA

Model ESS6008

Intellamatic® 12 Volt – 60 Amp/270 Amp Boost Wheel Charger & 70 Amp Power Supply for Standard Automotive, Deep-Cycle, AGM and GEL Cell Batteries

Performance Features

- Electrical Stability System (ESS™) technology turns ESS6008 into a stable power supply for extended service procedures or re-flashes
- Nominal 13.7V DC output
- Program diagnostics indicate weak or defective battery
- Charges all types of 12 volt batteries

ESS6008

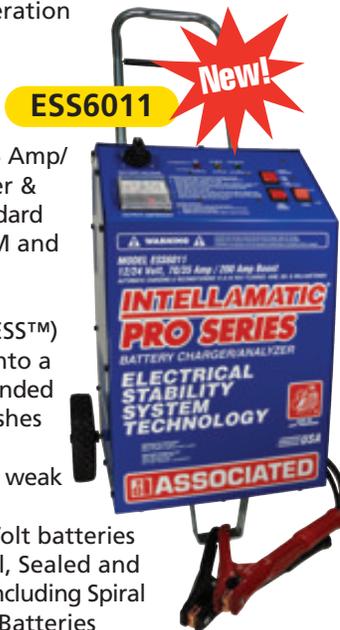

- Designed for AGM, GEL Cell, Sealed and Standard Flooded Batteries including Spiral Cell, Orbital™ or Optima™ Batteries
- “Safe In Any Weather” Operation
- CSA listed
- MADE IN USA

Model ESS6011

Intellamatic® 12/24 Volt, 70/35 Amp/ 200 Amp Boost Wheel Charger & 70 Amp Power Supply for Standard Automotive, Deep-Cycle, AGM and GEL Cell Batteries

Performance Features

- Electrical Stability System (ESS™) technology turns ESS6011 into a stable power supply for extended service procedures or re-flashes
- Nominal 13.7V DC output
- Program diagnostics indicate weak or defective battery
- Charges all types of 12/24 Volt batteries
- Designed for AGM, GEL Cell, Sealed and Standard Flooded Batteries including Spiral Cell, Orbital™ or Optima™ Batteries
- Dead Battery Override Control
- “Safe In Any Weather” Operation
- CSA listed for US & CANADA
- MADE IN USA

Model 9425

Intellamatic® 12 Volt 20/25 Amp AGM/GEL/Flooded Technology Charger/Analyzer/ Power Supply

Performance Features

- Micro-processor controlled and fully automatic charging of flooded batteries including GEL and AGM
- Analyzes battery condition and automatically selects proper charging technique
- Electrical Stability System (ESS™) technology feature is a stable power supply for extended service procedures or re-flashes
- Program for deep discharge recovery of flooded batteries
- Patented diagnostics indicate weak or defective battery
- Utilizes three color LEDs to monitor charging status
- Switch for selecting battery type
- Maintains battery charge, can be left connected to battery
- MADE IN USA

Model 6058

20 Amp 8/12/16 Volt Intellamatic® Smart Charger

Performance Features

- Fully automated micro-processor controlled charger capable of charging high efficiency, flooded, deep cycle, AGM and GEL batteries
- Designed for everyday continuous operation
- LED's indicate the charging status of the battery
- Rocker switch is used to select battery size:
- 8V for monoblock batteries — used on many golf carts
- 12 V standard battery
- 16 V high performance batteries
- Unit will proceed to float charge, after battery is fully charges, keeping the battery ready and fully charged
- MADE IN USA

Model 9640

Intellamatic® 12 Volt 40/45 Amp AGM/ GEL/Flooded Technology Charger/ Analyzer/Power Supply

Performance Features

- Micro-processor controlled 40 Amp Bench Charger and Power Supply
- For standard automotive, deep-cycle, AGM and GEL Cell Batteries
- Electrical Stability System (ESS™) technology feature is a 45 Amp stable power supply for extended service procedures or re-flashes — Nominal 13.7V DC Output
- Program for deep discharge recovery of flooded batteries
- Patented diagnostics indicate weak or defective battery
- Utilizes three color 10mm LEDs to monitor charging status
- Battery Selector Switch Sealed/Flooded/ESS Flash
- Dead Battery Override Control
- Heavy Duty Chrome Handle
- MADE IN USA

Model 9410

Portable 12 Volt 10 Amp AGM/GEL/Flooded Technology Charger/Analyzer

Performance Features

- Micro-processor controlled and fully automatic
- Analyzes battery condition and automatically selects proper charging technique
- Voltage controlled charging
- Suitable for flooded batteries including GEL and AGM
- Utilizes three color LEDs to monitor charging status
- Program for deep discharge recovery of flooded batteries
- Capable of charging both small and large batteries
- Switch for selecting battery type
- Maintains battery charge, can be left connected to battery
- MADE IN USA

Wheeled Chargers

Model 6001A

6/12 Volt Heavy Duty Commercial Charger

Powerful Performance

- The highest performance fast charger on the market
- 16 rates of charge
- 75 Amp continuous charge with 375 Amps crank assist at 12 Volts

Durability

- Heavy duty chrome plated handle
- Fan cooling mechanism prevents overheating enhancing unit's life span significantly

Safety

- 500 Amp fully insulated "Flexi-Spring" clamps
- UL and CSA listed with "Safe in Any Weather" operation
- Patented "Stop/Go" light

6001A

Additional Features

- Rugged 7" tires
- Automatic reset AC and DC circuit breakers
- Automatic timer
- MADE IN USA

Model 6002B

6/12/18/24 Volt Heavy Duty Commercial Charger

Powerful Performance

- The highest performance fleet charger on the market
- Rated up to 80 Amp continuous charge with 400 Amp crank assist at 12 Volts

- Heavy duty vacuum impregnated transformer

- Patented "Sub-Sil" multi-diode rectifiers

Durability

- Heavy duty chrome plated handle
- Fan cooling mechanism prevents overheating enhancing unit's life span significantly

Safety

- 500 Amp fully insulated "Flexi-Spring" clamps
- CSA listed with "Safe in Any Weather" operation
- Patented "Stop/Go" light

Additional Features

- Rugged 7" tires
- Automatic reset AC and DC circuit breakers
- Automatic timer
- MADE IN USA

6002B

Model 6003

Intellamatic® Smart 12 Volt 70 Amp Powerful Battery Charger/Analyzer for AGM, GEL and Standard Flooded Batteries

Powerful Performance

- Digital display micro-processor controlled and fully automatic

- Designed for AGM, GEL Cell, Sealed and Standard Flooded Batteries including Spiral Cell, Orbital™ or Optima™ Batteries
- Voltage/Amperage controlled charging
- Override switch for manual start of batteries below limit
- Switch for selection of battery type
- Weak battery detection and rejuvenation program

Durability

- Vacuum impregnated heavy-duty transformer to seal the unit against external agents
- Fan cooling mechanism prevents overheating enhancing unit's life span significantly
- Suitable for flooded or sealed batteries

Safety

- UL and CSA listed with "Safe in Any Weather" operation
- Cautions against incorrect polarity with patented "Stop/Go-light" technology
- 500 Amp clamps are covered with vinyl insulation; will not arc or spark
- Patented "Flexi-Spring" cable guards relieve cable stress

Additional Features

- Heavy-duty chrome plated handle
- Patented
- MADE IN USA

6003

Model 6006

6/12/24 Volt Heavy Duty Commercial Fleet Charger

Powerful Performance

- Rejuvenates all standard & maintenance-free 6/12/24 Volt batteries with five charging positions
- 70/65/30 Amp charge with 280 Amp crank assist at 12 Volts

Durability

- Vacuum impregnated heavy-duty transformer to seal the unit against external agents

- Multi-diode rectifiers (patented) to take over in case of failure
- Fan cooling mechanism prevents overheating enhancing unit's life span significantly

Safety

- CSA listed with "Safe in Any Weather" operation
- 500 Amp clamps are covered with vinyl insulation; will not arc or spark
- Patented "Flexi-Spring" cable guards relieve cable stress

Additional Features

- Five year limited warranty
- Heavy-duty chrome plated handle
- MADE IN USA

6006

“...the best one I have ever bought. I am able to use it in any weather condition outside, and then take it back inside and it still works great. Charging capability is unbeatable, going from a small lawn mower to a monster truck battery.”

- Matt Acker,
West Suburban Performance, L.L.C.

Model 6007A

Intellamatic® Smart Charger – 40/45 Amp/130 Amp boost Wheel Charger & Power Supply for Standard Automotive, Deep-Cycle, AGM and GEL Cell Batteries

Performance Features

- Electrical Stability System (ESS™) technology turns 6007A into a stable power supply for extended service procedures or re-flashes
- Nominal 13.7V DC 45 Amp output
- Program diagnostics indicate weak or defective battery
- Charges all types of 12 volt batteries
- Designed for AGM, GEL Cell, Sealed and Standard Flooded Batteries including Spiral Cell, Orbital™ or Optima™ Batteries
- “Safe In Any Weather” Operation
- UL listed
- MADE IN USA

- Dead Battery Override Control
- “Safe In Any Weather” Operation
- CSA listed for US & CANADA
- MADE IN USA

Model 6009

Heavy Duty Commercial Fast Battery Charger

Powerful Performance

- 6/12 Volt - 70/60/2 Amps 265 Amp Boost Assist
- Rejuvenates all standard & maintenance-free 6/12 volt batteries
- Fast charger with the highest performance crank assist of any 60 Amp charger on the market
- Fast starter with more features and higher rating for the price than any competitive charger in its class

Durability

- Vacuum impregnated heavy-duty transformer to seal the unit against external agents
- Multi-diode rectifiers (patented) to take over in case of failure
- Fan cooling mechanism prevents overheating enhancing unit's life span significantly

Safety

- UL and CSA listed with “Safe in Any Weather” operation
- Cautions against incorrect polarity with patented “Stop/Go-light” technology
- 500 Amp clamps are covered with vinyl insulation; will not arc or spark

Additional Features

- Five year limited warranty
- Heavy-duty chrome plated handle
- MADE IN USA

Model ESS6008

Intellamatic® 12 Volt – 60 Amp/270 Amp Boost Wheel Charger & 70 Amp Power Supply for Standard Automotive, Deep-Cycle, AGM and GEL Cell Batteries

Performance Features

- Electrical Stability System (ESS™) technology turns ESS6008 into a stable power supply for extended service procedures or re-flashes
- Nominal 13.7V DC output
- Program diagnostics indicate weak or defective battery
- Charges all types of 12 volt batteries
- Designed for AGM, GEL Cell, Sealed and Standard Flooded Batteries including Spiral Cell, Orbital™ or Optima™ Batteries
- Dead Battery Override Control
- “Safe In Any Weather” Operation

- CSA listed
- MADE IN USA

Model 6012

Professional Fast Battery Charger

Powerful Performance

- Offers high cranking assist of 250 Amps to better start vehicle
- Fully insulated clamps on twin extruded DC leads for tangle-free operation

Durability

- Vacuum impregnated heavy-duty transformer to seal the unit against external agents
- Multi-diode rectifiers (patented) to take over in case of failure
- Fan cooling mechanism prevents overheating enhancing unit's life span significantly

Safety

- UL and CSA listed with “Safe in Any Weather” operation
- 400 Amp clamps are covered with vinyl insulation; will not arc or spark

Additional Features

- Five year limited warranty
- Heavy-duty chrome plated handle
- MADE IN USA

New Model ESS6011

Intellamatic® 12/24 Volt, 70/35 Amp/200 Amp Boost Wheel Charger & 70 Amp Power Supply for Standard Automotive, Deep-Cycle, AGM and GEL Cell Batteries

Performance Features

- Electrical Stability System (ESS™) technology turns ESS6011 into a stable power supply for extended service procedures or re-flashes
- Nominal 13.7V DC output
- Program diagnostics indicate weak or defective battery
- Charges all types of 12/24 volt batteries
- Designed for AGM, GEL Cell, Sealed and Standard Flooded Batteries including Spiral Cell, Orbital™ or Optima™ Batteries

6017

Model 6017
12 Volt Fast Battery Charger with Wheels
Powerful Performance

- 40 Amp continuous rating at 12 volts
- 200 Amp cranking assist
- Durability*
- Vacuum impregnated heavy-duty transformer to seal the unit against external agents
- Safety*
- UL and CSA listed with "Safe in Any Weather" operation.
- Convection cooling allows for fewer moving parts
- 200 Amp clamps are covered with vinyl insulation; will not arc or spark
- Patented "Flexi-Spring" cable guards relieve cable stress
- Additional Features*
- Three year limited warranty
- Heavy-duty chrome plated hoop handle
- MADE IN USA

Model US18
Our Newest Value Leader — Upgraded 40 Amp Charger

- Performance Features*
- 40 Amp continuous rating at 6/12 volts
 - 200 Amp cranking assist with a full 330 Amps Manufacturer's Boost Rating
 - Appeals to the small shop and the do-it-yourself user
 - Fan cooling mechanism prevents overheating enhancing unit's life span significantly
 - Convenient handle with grip and quality steel foot for long lasting use
 - CSA listed for US and Canada
 - Two year warranty
 - "SAFE IN ANY WEATHER"
 - MADE IN USA

US18

New!

US20

Model US20
Our Newest Value Leader — Upgraded 40 Amp Charger with 90 Minute Timer

- Performance Features*
- 40 Amp continuous rating at 6/12 volts
 - 200 Amp cranking assist with a full 330 Amps Manufacturer's Boost Rating
 - 90 minute timer with hold
 - Appeals to the small shop and the do-it-yourself user
 - Fan cooling mechanism prevents overheating enhancing unit's life span significantly
 - Convenient handle with grip and quality steel foot for long lasting use
 - CSA listed for US and Canada
 - Two year warranty
 - "SAFE IN ANY WEATHER"
 - MADE IN USA

Model 6019
6/12 Volt Fast Battery charger with Wheels

- Powerful Performance*
- 40/20/10 Amp CSA continuous rating at 6 or 12 volts
 - 200 Amp cranking assist
 - 90 minute timer w/hold

- Durability*
- Vacuum impregnated heavy-duty transformer to seal the unit against external agents

- Safety*
- UL and CSA listed with "Safe in Any Weather" operation
 - Convection cooling allows for fewer moving parts
 - 200 Amp clamps are covered with vinyl insulation; will not arc or spark
 - Patented "Flexi-spring" cable guards relieve cable stress

- Additional Features*
- Three year limited warranty
 - 90 minute timer with "hold"
 - Heavy-duty chrome plated hoop handle
 - MADE IN USA

6019

Model 6021
6/12 Volt 50/50 Amp Professional Fast Battery Charger with Load Tester

- Powerful Performance*
- 6/12 volt fast battery charger with load tester
 - Test Batteries and charging systems with full 125 Amp Load Test
 - Dual meters for enhanced operational knowledge
 - Charges 6 and 12 volt batteries

- Durability*
- Vacuum impregnated heavy-duty transformer to seal the unit against external agents
 - Multi-diode rectifiers (patented) to take over in case of failure
 - Fan cooling mechanism prevents overheating enhancing unit's life span significantly

- Safety*
- UL and CSA listed with "Safe in Any Weather" operation
 - 500 Amp clamps are covered with vinyl insulation; will not arc or spark
 - Patented "Flexi-Spring" cable guards relieve cable stress
- Additional Features*
- Heavy-duty chrome plated hoop handle
 - MADE IN USA

Associated Equipment
100% tests all of its products
before shipment. All wheeled
chargers have performance tests
which are archived by unit serial
number and date code. Hand held
and bench testers undergo vigorous
end of line testing and all booster
cables are tested for connectivity
and polarity before packaging.
Associated Equipment prides itself
on providing the highest quality
product possible working
the first time and
every time!!

WARNING

ASSOCIATED

Model 6023

220V Heavy Duty Commercial Fast Battery Charger (International)

Powerful Performance

- Charges all standard & maintenance-free 6/12/24 Volt batteries
- High-speed 220 VAC charger
- 300 Amp engine starter

Durability

- Vacuum impregnated heavy-duty transformer to seal the unit against external agents
- Multi-diode rectifiers (patented) to take over in case of failure
- Fan cooling mechanism prevents overheating enhancing unit's life span significantly

Safety

- Certified for outdoor use; "Safe in Any Weather"
- 400 Amp clamps are covered with vinyl insulation; will not arc or spark
- Patented "Flexi-Spring" cable guards relieve cable stress

Additional Features

- CE Approved — Tested for safety by TUV Rhineland of North America
- CE Approved — Tested for EMC by DLS Electronic Systems
- MADE IN USA

6023

Model 6512/6512G

220V Fleet & Commercial Fast Battery Charger (International)

Powerful Performance

- Charges all standard and maintenance-free 6/12/24 Volt batteries
- High-speed 230 VAC charger
- 500 Amp engine starter
- Rated up to 80 Amp continuous 12 volt charge output

Durability

- Vacuum impregnated heavy-duty transformer to seal the unit against external agents
- Multi-diode rectifiers (patented) to take over in case of failure
- Fan cooling mechanism prevents overheating enhancing unit's life span significantly
- Delivers peak performance to fleets and repair shops in severely harsh environments

Safety

- Easy to read analog display
- "Safe In Any Weather" Operation
- 400 Amp clamps are fully insulated with polyester coating
- Clamp bar provides safe and easy storage of cables

Additional Features

- Designed for the professional
- Available with Euro (6512) or UK Plug (6512G)
- MADE IN USA

6512

6027B

Model 6027B

220V Heavy Duty Commercial High Output Battery Charger (International)

Powerful Performance

- Charges all standard & maintenance-free 6/12/24 Volt batteries
- Our highest output 220 VAC charger
- Cranking assist rating of 500 Amps at 12 volts

Durability

- Vacuum impregnated heavy-duty transformer to seal the unit against external agents

- Multi-diode rectifiers (patented) to take over in case of failure
- Fan cooling mechanism prevents overheating enhancing unit's life span significantly

Safety

- Certified for outdoor use; "Safe in Any Weather"
- Cautions against incorrect polarity with patented "Stop/Go-light" technology
- 500 Amp clamps are covered with vinyl insulation; will not arc or spark
- Patented "Flexi-Spring" cable guards relieve cable stress

Additional Features

- CE Approved — Tested for safety by TUV Rhineland of North America
- CE Approved — Tested for EMC by DLS Electronic Systems
- MADE IN USA

Portable Chargers

Associated Bench Charger

- Rugged design
- Unique battery charging strategies engineered for the safe and effective usage
- UL, cUL or CSA tested and approved
- Full product range offering to meet every need from Automotive, Farm, Fleet, and Power Sports

Model 6010A

Heavy Duty Commercial Portable Battery Charger 70/60 Amp with 230 Amp Crank Assist

Powerful Performance

- Charges all standard & maintenance free 6/12 volt batteries with 4 charging positions
- Fully portable

Durability

- Vacuum impregnated heavy-duty transformer to seal the unit against external agents

- Multi-diode rectifiers (patented) to take over in case of failure
- Fan cooling mechanism prevents overheating enhancing unit's life span significantly

Safety

- Cautions against incorrect polarity with patented "Stop/Go-light" technology
- 500 Amp clamps are covered with vinyl insulation; will not arc or spark

Additional Features

- Five year limited warranty
- Heavy-duty chrome plated handle
- MADE IN USA

Model 6058

20 Amp 8/12/16 Volt Intellamatic® Smart Charger

Performance Features

- Fully automated microprocessor controlled charger capable of charging high efficiency, flooded, deep cycle, AGM and GEL batteries
- Designed for everyday continuous operation
- LED's indicate the charging status of the battery
- Rocker switch is used to select battery size:
- 8V for monoblock batteries – used on many golf carts
- 12 V standard battery
- 16 V high performance batteries
- Unit will proceed to float charge, after battery is fully charges, keeping the battery ready and fully charged
- MADE IN USA

6058

Model 9410

Portable 12 Volt 10 Amp AGM/GEL/ Flooded Technology Charger/Analyzer

Performance Features

- Micro-processor controlled and fully automatic
- Analyzes battery condition and automatically selects proper charging technique
- Voltage controlled charging
- Suitable for flooded batteries including GEL and AGM
- Utilizes three color LEDs to monitor charging status
- Program for deep discharge recovery of flooded batteries
- Capable of charging both small and large batteries
- Switch for selecting battery type
- Maintains battery charge, can be left connected to battery
- MADE IN USA

9410

Model 9425

Intellamatic® 12 Volt AGM/GEL/ Flooded Technology Charger/ Analyzer / Power Supply

Performance Features

- Micro-processor controlled and fully automatic charging of flooded batteries including GEL and AGM
- Analyzes battery condition and automatically selects proper charging technique
- Electrical Stability System (ESS™) technology feature is a stable 25 Amp power supply for extended service procedures or re-flashes
- Program for deep discharge recovery of flooded batteries
- Patented diagnostics indicate weak or defective battery
- Utilizes three color LEDs to monitor charging status
- Switch for selecting battery type
- Maintains battery charge, can be left connected to battery
- MADE IN USA

9425

Model 9510

220V 6/12 Volt 10 Amp Automatic and Portable Battery Charger (International)

Performance Features

- Fully automatic micro-processor controlled portable charger
- 6 /12 Volt GEL and valve regulated batteries
- Analyzes condition of battery and automatically selects charging technique
- Designed for 230 VAC, 50/60 Hz electrical environments
- Capable of charging large and small batteries
- Maintains battery charge — battery can be left connected for extended period
- Voltage controlled charging
- MADE IN USA

Model 9520

220 Volt 6/12Volt 20 Amp Automatic and Portable Battery Charger (International)

Performance Features

- Fully automatic micro-processor controlled portable charger
- 6 /12 Volt GEL and valve regulated batteries
- Analyzes condition of battery and automatically selects charging technique
- Designed for 230 VAC, 50/60 Hz electrical environments
- Capable of charging large and small batteries
- Maintains battery charge – battery can be left connected for extended period
- Voltage controlled charging
- MADE IN USA

Model 9640

Intellamatic® 12 Volt AGM/GEL/Flooded Technology Charger/Analyzer/Power Supply

Performance Features

- Micro-processor controlled 40/45 Amp Bench Charger and Power Supply
- For standard automotive, deep-cycle, AGM and Gel Cell Batteries
- Electrical Stability System (ESS™) technology feature is a stable power supply for extended service procedures or re-flashes — Nominal 13.7V DC Output
- Program for deep discharge recovery of flooded batteries
- Patented diagnostics indicate weak or defective battery
- Utilizes three color 10mm LEDs to monitor charging status
- Battery Selector Switch Sealed / Flooded / ESS Flash
- Dead Battery Override Control
- Heavy Duty Chrome Handle
- MADE IN USA

“ I was disposing of some old obsolete equipment from our garage in Edmonton and came across 2 of your booster/chargers. I am glad to see you are STILL in business and making stuff in the US. I wish you all the best. ”

- C.P., Royal Canadian Mounted Police

Portable Chargers/Maintainers

Model 6015A

ATEC 6/12 Volt 40/10 Amp Portable Battery Charger 200 Amp Power Supply

Performance Features:

- Portable and powerful with a UL continuous rating of 40/10 Amps
- Portable bench top charger has four charger rates and will charge 6 and 12 volt batteries
- Whether dealing with motorcycle or truck battery, this four-in-one battery charger can do the job
- IMPORTED

6015A

Model 9004

ATEC Portable 12 Volt Charger/Maintainer

Performance Features

- Slide switch for either flooded or GEL battery
- Rocker switch for 0.8 amp or 2.0 Amp charge
- Micro-processor controlled utilizing LED operating indicators
- Reverse polarity and short circuit protection
- Battery clamps as well as optional fused battery connectors
- True float maintainer operation
- Safe for all battery types including AGM and GEL Cell Batteries
- IMPORTED

9004

Model 9002

ATEC Fully Automatic 12 Volt 1.5 Amp Underhood-Battery Charger

Powerful Performance

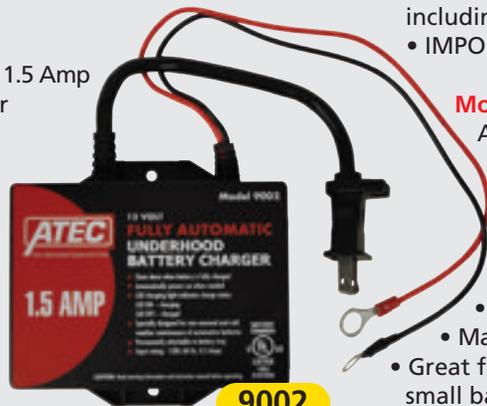

- Automatically powers on when needed
- Input Rating: 120V, 60Hz, 0.3 Amp

Safety

- Shuts down when battery is fully charged
- LED charging light indicates charging status
- Reverse polarity and short circuit protection

Durability

- Specifically designed for non-seasonal and cold weather maintenance of automotive batteries
- Permanently attachable to battery tray
- Sonically sealed — durable plastic case prevents damage to charger from oil, water, gasoline and other automobile fluid
- Safe for all battery types including AGM and GEL Cell Batteries
- IMPORTED

9002

Model 9014

ATEC Portable Automatic 6/12 Volt 10/2 Amp Full-Rate Charger

Performance Features

- Substantially reduces risk of overcharging
- Manual 6 volt position for lower voltage requirements
- Great for standard, maintenance-free, deep-cycle, and small batteries
- IMPORTED

9014

Model 9060

ATEC Portable Automatic 6/12 Volt 10/2 Amp Battery Charger

- Automatic Charger with 55 Amp Engine Starter
- Automatic 12 volt setting turns off at full charge and turns back on if battery needs more power
- Green LED signals "complete charge"
- Red LED indicates "reverse hook-up"
- Separate selection for help starting vehicle
- Manual 6 volt position for lower voltage requirements
- IMPORTED

9060

Model 9003

ATEC Portable Automatic 6/12 Volt 0.3 AMP Battery Charger

Performance Features

- Slide switch for 6 volt or 12 volt battery
- Micro-processor controlled utilizing LED operating indicators
- Reverse polarity and short circuit protection
- Battery clamps as well as optional fused battery connectors
- Safe for all battery types including AGM and GEL Cell Batteries
- IMPORTED

9003

Model 9090

ATEC Portable Automatic 12 Volt 15/2 Amp Battery Charger with 100 Amp Engine Start

Performance Features:

- Automatic 12 volt setting turns off at full charge and turns back on if battery needs more power
- Third switch on unit allows enhanced deep cycle charging
- Green LED signals "complete charge"
- Red LED indicates "reverse hook-up"
- Separate selection for help starting vehicle - 80% more than Model 9050 and 9060
- Manual 6 volt position for lower voltage requirements
- IMPORTED

9090

Associated Equipment imports a full-line of industry-leading, competitive KWIKSTART jump-starters, bench-top battery chargers and maintainers under the ATEC® brand name. Associated has long-term partnerships with only the most reputable, high-quality suppliers and performs strict incoming performance tests on our imported jump-starters, battery chargers and maintainers to assure customers that all of our products are held to the highest standards of best-in-class quality and reliability.

Jump Starters

Model 6127 Kwik Start (North America)
110 Volt Roll Around Starting Unit

6127

Model 6127EX Kwik Start (International)
220 VAC Roll Around Starting Unit

Powerful Performance

- On-board starter battery gives more cranking power than any fast charger — up to 1100 amps cranking power
- Assists both customers and employees where there is no electrical power
- Recharges battery up to 20X faster than hand-carried units
- Solid state circuitry monitors battery condition and maintains maximum state of charge

- Fully automatic 10 amp charger recharges starter battery or any on-board 12 volt battery
- Will accommodate a user supplied group 24 battery

Safety

- Patented "Stop/Go light" on cable and 500 amp insulated clamps with patented "Flexi-Spring" cable guards warn operators before making a reverse connection
- Plugs into any AC outlet for rapid automatic recharging
- Designed for safe handling in any weather
- Includes convenient clamp bar for easy and safe storage of clamps when not in use

Applications

- Car dealerships
- Industrial plants
- Airport operations
- Shopping centers

Model 6255 Kwikstart
ATEC Kwikstart 12 Volt Portable Power and Jump Starter with Internal Charger

Performance Features

- Exclusive Heavy-Duty Sealed AGM Batteries Battery provides Best in Class Performance
- Built-in Charger recharges unit with AC cord (included)
- Instantly Jump-Starts WITHOUT the need for another vehicle
- 12 Volt DC Accessory Outlet to Power and/or recharge DC Electronics
- 1700 Peak Amps 360 CCA
- LED Battery Status Indicator
- 32" Heavy-Duty Cables for True Portability and Technician Ease of Use
- Patented
- IMPORTED

6255

Model 6275 Kwikstart
ATEC Kwikstart 12 Volt Portable Power and Jump Starter with Internal Charger

Powerful Performance

- Two 12 Volt 22 AH Heavy-Duty Sealed AGM Batteries Battery provides "Best in Class" Performance
- Up to 100 Hours of Portable 12 Volt DC
- Jump starts with over 700 CCA of power
- Two Position "ON/OFF" Switch with Easy-to-Read LED Battery Status Indicator
- 12 Volt DC Accessory Outlet to Power and/or Recharge DC Electronics
- Heavy Duty Clamps with 2AWG 66" Long Cables
- Use Any Standard Extension Cord to Charge (Extension cord not included)
- Ideal for jump-starting cars, trucks, boats, RV's and tractors
- Up to 100 hours of portable 12 volt DC power tools, work lights and more

6275

Safety

- Complete with insulated clamps
- "Smart" 1000 mA Internal Charger with Built-In Over-charge Protection - Prolongs Battery Life

Durability

- Designed for rough use
- 2 position OFF/ON switch located on front unit

Additional Features

- Battery state of charge LED Display
- IMPORTED

Model 6295 Kwikstart
ATEC Kwikstart 12/24 Volt Portable Power and Jump Starter with Internal Charger

Powerful Performance

- Two 12 Volt 22 AH Heavy-Duty Sealed AGM Batteries Battery provides Best in Class Performance
- Jump starts with over 700 CCA of power.
- Three Position "24V/OFF/12V" Switch with Easy-to-Read LED Battery Status Indicator
- 12V DC Accessory Outlet
- Heavy Duty Clamps with 2AWG 66" Long Cables
- Use Any Standard Extension Cord to Charge (Extension Cord not included)

Safety

- Complete with insulated clamps
- "Smart" 1000 mA Internal Charger with Built-In Over-charge Protection - Prolongs Battery Life

Durability

- Designed for rough use
- Three Position "24V/OFF/12V" Switch with Easy-to-Read LED Battery Status Indicator
- IMPORTED

6295

Jump Starter Accessories

Model MS6209

Automotive Memory Saver Cable

- Prevent the loss of electronic memory when disconnecting the vehicle's battery
- High visibility coiled cord stretches to 8 feet!
- Easy storage
- In line fuse
- Plug into OBDII Connector for 1996 and later vehicles
- Cigarette lighter input
- IMPORTED

MS6209

Model TK6210

Battery Service Kit

- Great battery service kit for tow trucks, car lots and field repair
- Top of the line quality on all the tools all packaged in a useful pouch
- Set contains three wrench sizes required for all battery service
- Set contains pliers, puller, cable and post cleaner for complete battery service
- IMPORTED

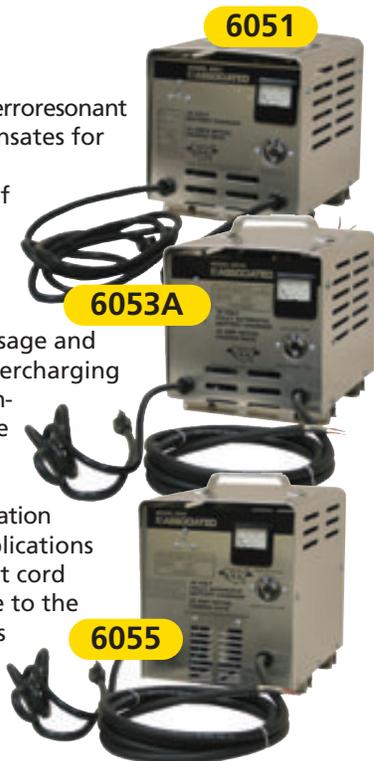

TK6210

Specialty Chargers

Model 6051, 6053A, 6055

Powerful Performance

- Each charger features a Ferroresonant transformer that compensates for input voltage variation
- Current limited in case of short circuit
- All Ferroresonant units feature patented electronic timing for longer battery life, less water usage and fuller charge without overcharging
- Ideal for golf carts, personnel carriers, maintenance vehicles, scissor lifts, wheelchairs and any other 24/36/48 volt application
- Excellent for marine applications
- Equipped with an output cord without a connector due to the multiple use applications
- MADE IN USA

Parallel Chargers

Model 6065

30 AMP High-Value and Efficient Parallel Battery Charger

Powerful Performance

- Charges 1 -10, 12 volt batteries, in parallel, in less than 24 hours
- 16 charge rates offer precise charging
- Alternate Model 6068 charges 1 – 36, 12 volt batteries in parallel
- Analog Meter shows testing efficiency results

Safety

- Key safety procedures in place
- UL listed
- 300 amp insulated safety clamps

Additional Features

- Can be mounted on a wall or bench
- MADE IN USA

Multi-Battery Charger

Model 6366

4 x 20 Industrial Gang Charger for Standard Automotive, Deep Cycle, AGM and GEL Cell Batteries

Performance Features

- Four independent, fully automatic charging channels that control voltage and current up to 20 Amps per circuit
- Four sets of LED indicators showing charging status by battery
- Four sets of detachable 6' leads with 300 Amp heavy duty clamps

- Charges all types of 12 volt batteries
- Designed for AGM, GEL Cell, Sealed, and Standard Flooded Batteries including: Spiral Cell, Orbital™ or Optima™ batteries
- Patented diagnostics indicate weak or defective battery
- Dead Battery Override Switch
- CSA listed
- MADE IN USA

Model 6068

110 Amp Parallel Battery Charger

Powerful Performance

- Charges 1 -36, 12 volt batteries, in parallel, in less than 24 hours
- Designed for 190 - 262vac 50/60Hz electrical environments
- Includes a pigtail rectifier with a deep reserve capacity
- Digital Control shows testing efficiency results

Safety

- Manufactured with important safety precautions in place
- Circuit breaker protection and isolated transformer provides added safety

Additional Features

- Can be mounted on a wall or bench
- MADE IN USA

Model 6078 (International)

30 Amp High Value and Efficient Parallel Battery Charger

Powerful Performance

- Charges 1 -10, 12 volt batteries, in parallel, in less than 24 hours
- Designed for 220vac 50/60Hz electrical environments
- Includes a patented multi-diode rectifier with a deep reserve capacity

Safety

- Manufactured with important safety precautions in place
- Circuit breaker protection and isolated transformer provides added safety

Additional Features

- Can be mounted on a wall or bench
- MADE IN USA

Series Chargers

Model 6080A

Performance Features

- Highest industry rated voltage output (106 volts) for this category of series battery charger
- Charges up to 36 cells at the same time
- Designed for continuous duty, heavy duty operation
- Charges new batteries and rejuvenates deeply sulfated batteries
- Fully charges 6 maintenance-free, AGM or GEL batteries at one time
- Five charging leads included
- MADE IN USA

6080A

Model 6082

Performance Features

- Industry standard for professional series battery charging with up to 158 volt continuous output
- Charges 2 – 60 cells from 0 to 6 amps
- State-of-the-art, anti-spark safety delay
- Voltage is shut-off when current is interrupted, eliminating sparking and provides additional protection when charging
- 10 batteries where the voltage approaches 150 volts DC
- Isolated transformer with full wave silicon rectifier
- Output current can be smoothly adjusted over full range with the front panel control
- Polarity protection for operator and equipment safety
- Nine charging leads included
- MADE IN USA

6082

Accessories

Model 6075

Accessory Model 6075 Bus Bar

Features

- Bus Bar set for parallel charging
- Ten battery capacity
- Use one or combine additional bars for added capacity
- Insulated fiberglass backboard with 10 pairs DC charging leads, 4 AWG, 36" long with 300 Amp insulated safety clamps
- Comes with 3 ft. 4 AWG cables to connect to charger or additional bus bars

6075

Safety

- Manufactured with important safety precautions in place

Additional Features

- Can be mounted on a wall or bench
- Ensures convenient way to hook up to 10 batteries in parallel
- Includes 10 pairs of charging leads with insulated fiberglass backboard
- MADE IN USA

Model 6086

Battery Charging Rack

Features

- Stores up to 15 Batteries on convenient three shelf, heavy-gauge steel construction rack
- Acid Resistant Shelves
- Insulated storage bars and connections ensure there are no live electrical connections.
- 10 pairs DC charging leads, 10 AWG, 36" long with 300 Amp insulated safety clamps
- Comes with 6 ft. 4 AWG cables to connect to charger or additional bus bars

6086

Safety

- Manufactured with important safety precautions in place
- MADE IN USA

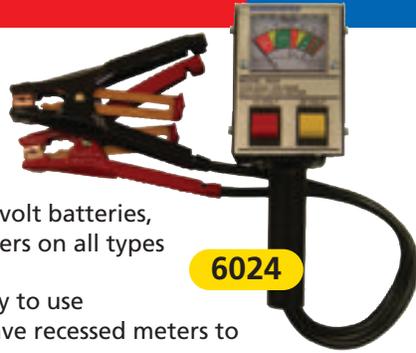

Testers

Model 6024

Hand-Held Alternator/
Battery Tester

- Full 125 amp load tests; 12 volt and 24 volt batteries, alternators and starters on all types of vehicles
- Lightweight and easy to use
- Hand-held testers have recessed meters to protect from damage
- Features heavy-duty insulated safety clamps with 300 amp jaws and side terminal adapters
- Durable and built for safety
- Patented
- Limited 1 year warranty
- MADE IN USA

Safety

- Durable and safe
- Recessed meter and insulated clamps
- MADE IN USA

Model 6030DV

Hand-Held Digital Battery
Load Tester

- Full 125 amp load tests 12 and 24 volt batteries, alternators and starters on all types of vehicles
- Durable and built for safety
- Recessed meter helps protect this hand-held tester from damage and ensures more accurate and reliable outputs
- Features heavy-duty insulated safety clamps with 300 amp jaws and side terminal adapters
- Patented
- MADE IN USA

Model 6026

Hand-Held Battery Load Tester

- Great value priced battery tester
- Cables extend out from bottom of handle for safe and convenient use
- Recessed meter helps protect this hand-held tester from damage and ensures more accurate and reliable outputs
- Features easy to use clamps with 300 amp jaws
- Lightweight and easy to use
- Limited 1 year warranty
- IMPORTED

Model 6031

Alternator/Battery Tester

Powerful Performance

- Tests for defective alternator diodes including GM trio test
- Performs complete battery test
- 125 amp load checks state of charge on conventional and maintenance-free batteries
- Tests for excess starter current and alternator/regulator output voltage
- Hand-held testers have recessed meters to protect from damage

Model 6028DL

Hand-Held Digital Load 12
Volt Combo Load Tester

- With two loads: a 60 amp load to test smaller batteries and a 125 amp load to fully test larger batteries for both CCA and amp hours
- Mid-sized clamps offer greater flexibility when attaching the hard to reach applications
- Heavier load permits unit to perform all tests as Model 6029 and Model 6026
- Patented
- MADE IN USA

Safety

- Features heavy duty insulated safety clamps with 300 amp jaws and side terminal adapters
- MADE IN USA

Model 6033

Digital 125 Amp load tester that computes the CCA of the battery. The heavy load enables the 6033 to detect bad batteries that are sometimes missed by the electronic testers

Performance Features

Kelvin connected digital meter displays the following values:

- Current Battery Voltage
- Maximum voltage reading
- Minimum voltage reading
- CCA of the battery under test
- Load test time varies with the battery for shorter testing time
- Lightweight and easy to use
- Recessed meter and insulated clamps
- Patent Pending
- MADE IN USA

Model 6029

Durable hand-Held Battery Tester

Powerful Performance

- Test 6 and 12 volt batteries, alternators and starters
- 125 amp load
- One hand operation
- Easy to read meter
- No adjustments

Model 6034

Carbon Pile Load Tester
500 AMP

Powerful Performance

- Carbon pile tester handles all 6/12 volt batteries
- Two large 4.5" analog meters display amperes and volts
- DC test leads are 2.5' 4 AWG cable
- Unit comes with manual adjust knob
- Buzzer sounds after load is engaged for 15 seconds

Safety

- Durable and safe
- IMPORTED

6034

Model 6042

Battery/Electrical Systems Tester

Powerful Performance

- Designed with highest quality and versatility
- Interprets data from the charging/starting system on easy-to-read LED display voltmeter and ammeter
- Shows positive and negative amps for easy diagnosis of current leakage problems
- The 500 amp carbon pile load variable load capability provides accurate load testing for up to 1,000 CCA batteries

Durability

- Unique curved carbon discs ensure maximum contact, fewer hot spots, smoother operation and longer life
- Heavy-duty single extruded leads for testing up to 15 feet apart

Safety

- Saves time for testing electrical systems on 12, 12/24 and 24 volt vehicles
- Coated circuit board prevents damage and meter inaccuracy

Additional Features

- Model 6038C heavy-duty, two wheel tilt-back cart with 8" wheels and 2 trays included with Model 6042
- MADE IN USA

6042

6036B

Model 6036B

6/12 Volt Heavy-Duty Variable Load Tester

Powerful Performance

- Heavy-duty use
- High-volume testing and fleet use
- Tests 6/12 volt batteries
- 1000 amp load; tests batteries up to 2000 cold cranking amps

- Cools with high RPM fan for continuous battery testing
- MADE IN USA

Additional Features

- High resolution carbon pile assembly for smoother operation and longer life
- Model 6038C for added mobility with convenient heavy-duty cart with wheels
- MADE IN THE USA

Model 6036B-24

6/12/24 Volt Heavy-duty Variable Load Tester

Powerful Performance

- Same features at Model 6036B
- Added value of 24 volt battery testing capacity
- Tests 6/12/24 volt batteries

Model 6039

0-600 Amp Variable Load Tester

Powerful Performance

- Test batteries up to 1200 CCA
- Narrow threaded shaft for fine adjustment
- Temperature compensation chart
- Easy to read digital voltmeter and ammeter combine with the versatility of a carbon pile load to give precise determination of battery and charging system problems

Safety

- Spring loaded to shut-off automatically
- Unique curved discs to prevent hot spots
- MADE IN USA

6039

Model 6044

Automatic Battery/Electrical System Tester

Performance Features

- Easy-to-read LED voltmeter and ammeter
- 500 amp safety clamps with "Flexi-Spring" and patented side terminal adapters
- Separate light gauge high impedance test leads with alligator clips for tight spots
- Detachable industrial inductive amp probe with degaussing button
- Cart can be purchased separately

Automated testing of:

- Battery
- Alternator
- Starter
- Max/Min of current and voltage
- Microprocessor based control board protected from reverse connections; plus heavy duty conformal coating to protect from moisture and dirt
- Testing of 24V electrical systems
- Automated 500A fixed load
- MADE IN USA

6044

“ In 1999, we purchased our first set of Associated chargers...the units function year in and year out in a safe and reliable manner. Their automatic functions perform as expected, and give us the confidence to leave them unattended during the charging process on vessels of great value. We have never had a charger do so much work for so many years. ”

- Andy Shor
Burr Bros Boats Inc

Model 8502A/8503A

Starter Alternator Generator Bench Tester

Powerful Performance

- 230 VAC – Model 8502A (50HZ) 1 HP – Model 8503A (60HZ) 1 HP for testing heavy duty higher output commercial alternators
- Tests 12 or 24 Volt internally or externally regulated alternators
- Universal test lead included
- Provides result from free-run starter or light-load alternator tests
- High resolution digital control panel meter more accurate than analog meter

Safety

- Compact and user-friendly
- Regulated power supply is overload protected
- Safety interlock prohibits testing unless belt guard is in place
- Easy to read LED meter

Additional Features

- Easy-to-read high resolution digital control panel
- Meter
- Designed with both the operator and the customer in mind
- MADE IN USA

Model 8600/8601

Starter/Alternator Generator Bench Tester

Powerful Performance

- Model 8600 ½ HP – Model 8601 1 HP for testing heavy duty higher output commercial alternators
- Tests 12 or 24 volt internally or externally regulated alternators
- Universal test lead included
- Provides result from free-run starter or light-load alternator tests
- High resolution digital control panel meter more accurate than analog meter

Safety

- Compact and user-friendly
- Regulated power supply is overload protected
- Safety interlock prohibits testing unless belt guard is in place
- Easy to read LED meter

Additional Features

- Easy-to-read high resolution digital control panel
- Meter
- Designed with both the operator and the customer in mind
- MADE IN USA

Model 8650

Starter/Alternator Generator Bench Tester

Powerful Performance

- Drive motor horse-power-5HP single speed
- Designed for fleet operator, parts jobber or agricultural-industrial dealer
- Fully load tests alternators and generators to 165 amps and intermittently to 190 amp
- Free run starter test
- Load tests batteries to 1000 CCA

Safety

- 2 easy-to-read analog meters
- Pre-test for reversed lead connections or shorted alternator diodes before turning on the motor
- Operators manual included
- Serpentine pulley included

Durability

- Sliding ears with stepped pins hold alternators like manufacturer intended

Additional Features

- 8650TL Basic Leads (11 leads) included
- MADE IN USA

Bench Tester Leads

Model 8516

Bench Tester Leads for Domestic Alternators (Chrysler, Ford, GM/Delco)

Model 8517

Bench Tester Leads for Import Alternators (Honda, Nissan, Toyota, etc.)

Model 8518

Bench Tester Leads for Domestic and Import alternators (Ford, GM, Honda, Toyota, etc.)

Model 8519

Bench Tester Leads for 6GC Ford Alternator

Clamps/Booster Cables/Accessories

Model 6038C

Heavy-Duty, tilt-back cart

- Adjustable Top Plate
- Two Deep Storage Trays
- 8" wheels
- Provides stable support for large testers such as Associated Models 6044 and 6036B
- All steel construction
- MADE IN USA

6038C

Model 6041 Thermal Printer

- RS232C serial interface via a 6-way RJ12 socket
- Tested to comply with FCC Standards
- Designed for use with Associated Model 6044 and similar devices
- Four AA Batteries included
- IMPORTED

6041

Model 6043

+/- 1000 Amp AC/DC Clip-on Amp Probe

Performance Features

- A great tool for accurate measurement of current sources up to 1000 Amps
- Used with several Associated models — including: Model 6044, Model 6042
- This unit may be used with any digital multi-meter
- Use with graphing meter or lab scope to view current waveforms on fuel injectors, fuel pumps, primary ignition coils and more
- 1mV/amp output guarantees easy reading on your meter
- Design allows accurate current readings without breaking the circuit
- Low battery indication
- Switch settings OFF/200A/1000A
- Large jaw opening, 2.2, and large jaw space, 2.2" x 2.75"
- IMPORTED

6043

Plug-In Cables, Boxes and Accessories

Model 6125

6205

6200

Model 6199/6202/6205/6200

- Professional quality, heavy-duty clamps for all booster cables
- Replace Associated clamps or upgrade other manufacturers' products with these professional quality replacement clamps
- Model 6200 Side Terminal Adapter
- Fits Associated and most other insulated clamps
- Allows for easier connections in hard to reach spots
- MADE IN USA

Battery Cables and Clamps Features & Benefits Comparison

Associated	Competition
OEM Approvals	No OEM Approvals
Targets Professional/Commercial User	Retail is Primary Market
Patented Polarity Indication in Several Models	No Polarity Indication Available
Made in USA (FTC Compliant)	Made off shore (China/Mexico)
Heavy Duty Bonded “Plastisol” Vinyl Clamps	Retail grade parrot clamps with lower grade wire
4+ AWG Copper Cable	Aluminum mix wire cable
Cable Jacket Material : T-94, 4764 TPE and 6197-78 PVC	Light duty jacket, not T94 Standard
Grease and chemical resistant clamps/cables	Low grade cable, not rated to survive corrosive environments
Replaceable Jaws	Not Serviceable
Built in Side Terminal Adapters (PATENTED)	No Side Terminal Adapters Available
Cables Rated in AWG	Cable Not Rated in AWG
Arc Resistant	Not Arc Resistant
Strain Relief Guards on Clamps	Not Available
Cables Custom Lengths Available	Not Available

Model 6118

Heavy-Duty Tangle-Free Plug-In Cable

Powerful Performance

- Designed with operator and customer in mind
- Plug-in starting system starts cars conveniently, faster and safer
- Connection made without ever lifting a service truck hood

Safety

- Polarized Anderson type plug won't break — even in the coldest weather
- Solid copper jaw insulated clamps with patented “Flexi-Spring” cable guards — relieves cable stress
- Side Terminal Adapter
- Weather-proof socket
- Durability
- Heavy-duty
- Up to 30' of tangle-free cables on the 6118
- MADE IN USA

Model 6119

Heavy-Duty Tangle-Free Plug-In Cable

Powerful Performance

- Designed with operator and customer in mind
- Plug-in starting system starts cars conveniently, faster and safer
- Connection made without ever lifting a service truck hood
- MADE IN USA

Safety

- Polarized Anderson type plug won't break — even in the coldest weather
- Solid copper jaw insulated clamps with patented “Flexi-Spring” cable guards – relieves cable stress
- Side Terminal Adapter
- Weather-proof socket
- Durability
- Heavy-duty
- Up to 34' of tangle-free cables

Model 6139 4 AWG

Heavy-Duty Tangle-Free Plug-In Cables

Powerful Performance

- Stainless steel receptacle mounts onto a truck bumper and connects directly to a battery
- Reaches stalled vehicles from front, back or side
- For flush mount version, combine with Model 6125

Safety

- Polarized LEXAN plug won't break in coldest weather
- 500 Amp solid copper jaw, with patented insulated clamps with “Flexi-Spring” cable guard
- Patented “Stop/Go safety light”
- Durability
- Heavy duty Stainless Steel Box
- 30' of tangle-free cables
- MADE IN USA

Model 6146 1 AWG
Heavy-Duty Tangle-Free
Plug-In Cables

Powerful Performance

- More truck starting power than an 8HP gas starter
- Extra heavy duty plug-in starting system ideal for volume car starting in extremely cold climates
- Heavier 1 AWG cable has half the voltage drop as Model 6139
- 800 Amp solid copper jaw, with patented insulated clamps with "Flexi-Spring" cable guard
- For flush mount version, combine with Model 6149

Safety

- Polarity protection
- Durability
- Heavy duty Stainless Steel Box
- Over 30' of tangle-free cables
- MADE IN USA

Model 6141

This Aircraft Jumper Cable features a standard 3-pin Lexan female plug (equivalent to AN2551) on one end and alligator clamps on the other end

Performance Features

- Heavy duty, durable 4 AWG copper cable
- Twin-extrusion minimizes tangling
- Incredible room-temperature flexibility at 40° below zero!
- Fully-insulated clamps won't arc or spark and are rated up to 500 Amps
- Clamps have a solid copper jaw and patented "Flexi-Spring" strain relief to prevent cable breakage
- Polarity light warns if clamps are connected incorrectly, preventing electrical system damage and personal injury
- Cable length – 15 feet
- MADE IN USA

Model 6142

This Aircraft Jumper Cable (Piper) features a special Piper single-pin plug on one end and alligator clamps on the other end.

Performance Features

- Heavy duty, durable 4 AWG copper cable
- Twin-extrusion minimizes tangling
- Incredible room-temperature flexibility at 40° below zero!
- Fully-insulated clamps won't arc or spark and are rated up to 500 Amps
- Clamps have a solid copper jaw and patented "Flexi-Spring" strain relief to prevent cable breakage
- Polarity light warns if clamps are connected incorrectly, preventing electrical system damage and personal injury
- Cable length – 15 feet
- MADE IN USA

Model 6217

This Aircraft Power Plug is a coaxial Piper type designed for the aircraft market.

Performance Features

- Electrical conductors and connections are designed for maximum efficiency and long life
- Cable clamp holds wires firmly in place
- Die cast housing
- Mates with 11041 socket
- Brass female contact with spring-grip tension provides solid engagement with the socket
- Accepts up to 1/0 AWG cable
- Screws together in minutes
- Sleeves are solid copper, silver plated
- Solenoid pin
- Corrosion proof
- Compatible with AN2552-3A external power receptacle
- IMPORTED

Heavy-Duty Booster Cables

Model 6156 Booster Cables

- Professional quality, heavy-duty booster cables ensure quick and efficient connections
- 12', 5AWG, 400 Amp Clamp Heavy Duty booster cable
- Designed with your safety and convenience in mind
- Includes insulated safety clamps 100%
- MADE IN USA

Model 6157 Booster Cables

- Professional quality, heavy-duty booster cables ensure quick and efficient connections
- 12', 5AWG, 500 Amp Clamp Heavy Duty booster cable, with Side Terminal Adapters
- Designed with your safety and convenience in mind
- Includes insulated safety clamps 100% copper jaws
- MADE IN USA

Model 6158 Booster Cables

- Professional quality, Heavy-Duty booster cables ensure quick and efficient connections
- 12', 5AWG, 500 Amp Clamp Heavy Duty booster cable, with Side Terminal Adapters
- Equipped with a red safety light (Stop/Go) which warns operator if polarity is reversed
- Designed with your safety and convenience in mind
- Includes insulated safety clamps 100% copper jaws
- MADE IN USA

Model 6159 Booster Cables

- Professional quality, Heavy-Duty booster cables ensure quick and efficient connections
- 15', 5 AWG, 500 Amp Clamp Heavy Duty booster cable, with Side Terminal Adapters
- Designed with your safety and convenience in mind
- Includes insulated safety clamps 100% copper jaws
- MADE IN USA

Model 6160 Booster Cables

- Professional quality, Heavy-Duty booster cables ensure quick and efficient connections
- 20', 4 AWG, 500 Amp Clamp Heavy Duty booster cable, with Side Terminal Adapters
- Designed with your safety and convenience in mind
- Includes insulated safety clamps 100% copper jaws
- MADE IN USA

Model 6161 Booster Cables

- Professional quality, Extra Heavy-Duty booster cables ensure quick and efficient connections
- 20', 1 AWG, 800 Amp Clamp Heavy Duty booster cable
- Designed with your safety and convenience in mind
- Includes insulated safety clamps 100% copper jaws
- MADE IN USA

Model 6162 Booster Cables

- Professional quality, Super Heavy-Duty booster cables ensure quick and efficient connections
- 15', 1/0AWG, 800 Amp Clamp Heavy Duty booster cable
- Designed with your safety and convenience in mind
- Includes insulated safety clamps 100% copper jaws
- MADE IN USA

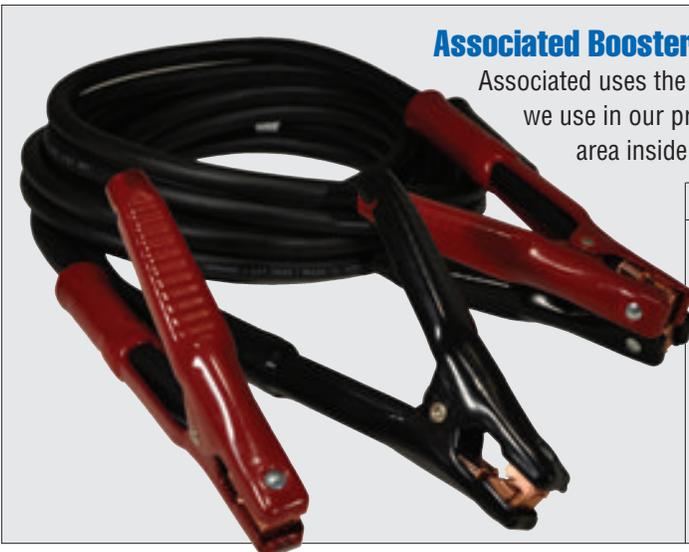

Model 6163 Booster Cables

- Professional quality, Super Heavy-Duty booster cables ensure quick and efficient connections
- 25', 1/0AWG, 800 Amp Clamp Heavy Duty booster cable
- Designed with your safety and convenience in mind
- Includes insulated safety clamps 100% copper jaws
- MADE IN USA

Associated Booster Cable

Associated uses the circular mil standard to highlight the quality of the cable we use in our products. A circular mil is equal to the diameter of the copper area inside the jacket. A circular mil is one thousandth of an sq. inch.

Model No.	Gauge	Circular Mil. Copper
6156	5 AWG	32,900
6157	5 AWG	32,900
6158	5 AWG	32,900
6159	5 AWG	32,900
6160	4 AWG	41,300
6161	1 AWG	83,600
6162	1/0 AWG	106,400
6163	1/0 AWG	106,400

Service

Should you need to send your unit in for repair, you may send it to the address listed below or contact one of our authorized repair centers for someone in your area. The list of Authorized Repair Centers can be found at www.associatedequip.com. Associated has over 200 authorized repair centers in North America.

Please mark the package ATT: REPAIR DEPT. and enclose a copy of the bill of sale if requesting warranty work. Be sure to include a brief description of the problem and list a contact name, email address, telephone number and return shipping address.

Associated Equipment Corporation
ATT: Repair Dept.
5043 Farlin Ave.
St. Louis, MO. 63115

If the unit is in warranty we will automatically repair and return the unit back to the address specified. If the unit is a paid repair or if we have any questions regarding the unit, we will contact you by phone, email, or letter with an estimate or any questions we have regarding your unit. If you have any questions, we can always be reached by emailing Technical Service.

5043 Farlin Avenue
St. Louis, MO 63115
800-949-1472
fax: 314-385-3254
www.associatedequip.com

For product quotes or order placement,
contact Customer Service or email:
customerservice@associatedequip.com

Technical Service at www.associatedequip.com
or email: techservice@associatedequip.com.

Extensive range of Authorized Repair Stations (ARS)
throughout the United States, Canada and Puerto Rico.

Online support available includes:
Updated technical data and specifications
Downloadable high-resolution product images
Wiring Diagrams
Product Manuals
